In re: KCAL(AM), Redlands, CA
Facility ID No. 55416
Application No. BP-20090909AAF

Finding of No Significant Impact

Dear Mr. Martin:

This letter concerns the referenced application of Lazer Broadcasting Corporation ("Lazer"), as amended, for minor modification of the facilities of Station KCAL(AM), Redlands, California (the "Station") which proposes to change the Station's antenna site and technical facilities. In the amended application, Hughey proposes to construct four new 138.5-foot towers (with concomitant ground-level equipment) at the proposed site from which Lazer will operate both daytime and nighttime facilities for KCAL(AM). Because a portion of the proposed transmitter location is in a flood plain, Lazer submitted an Environmental Assessment ("EA") as required by Section 1.1307 of the Commission's Rules (the "Rules")¹ on May 12, 2010. *Public Notice* of the filing of the EA was issued on June 23, 2010.² The Commission received no comments in response to the *Notice*.

Upon examination of the EA, we find that the information supplied satisfies the requirements specified in Section 1.1311 of the Rules.³ Accordingly, pursuant to Section 1.1308 of the Rules,⁴ we find that the KCAL(AM) towers will have no significant environmental impact on the quality of the human environment, and no further environmental processing is warranted. Moreover, we have examined the captioned application and find that it complies with all pertinent statutory and regulatory requirements. Accordingly, the application (File No. BP-20090909AAF) of Lazer Broadcasting Corporation for modification of the facilities of Station KCAL(AM), Redlands, California, IS GRANTED.

Sincerely,

Peter H. Doyle, Chief
Audio Division
Media Bureau

cc: Lazer Broadcasting Corporation
